Description	Qty	Unit price	Amount
Networthy Grade 5 Personal Finance Course 16 interactive lessons across 8 units, printable activities for every unit, parent guides, and a 15 question assessment taken before and after the course. Household license. One purchase covers every child living in the household, on any device, with no per child fee and no renewal. Delivered online at networthykids.com.	1	\$79.00	\$79.00
Total due			\$79.00

How to use this invoice

1. Fill in the student's name, the program and state, and the date you are purchasing.
2. Submit it through your program's portal under curriculum or instructional materials. If your program reimburses you after purchase instead, submit this alongside your receipt.
3. We are paid by the program, not by you, so there is nothing to pay up front.
4. When the payment reaches us we email your license key, usually the same day.

If your program also wants a countersigned invoice, a W-9, a rate schedule or a refund policy, email hello@networthykids.com with the program name and we will send them the same day. Refunds are available for 30 days from purchase, no questions asked, although purchases made through an education savings account program follow that program's own refund process. Full terms at networthykids.com/terms. The first two lessons are free to try before any purchase, with no account required.
